

In the **Q**: Valet Parking Services

Phil Wasta
MedQuarter
Executive Director

As I write this article, Cedar Rapids is enduring one of the coldest days of the year, so far. It is minus seven degrees with wind chill factors approaching minus thirty degrees. The clear, sunny sky that I see through the window is masking the harsh winter realities that lay outside.

Another harsh reality is that medical appointments happen every day, regardless of the weather. Did you know that Physicians' Clinic of Iowa, Mercy Medical Center and UnityPoint Health – St. Luke's Hospital offer free valet parking at five different locations within the MedQuarter?

You can have drive-up convenience at the following entrances:

- **PCI Medical Pavilion, East Entrance**
(Enter from 1st Avenue East, next to Surgery Center Cedar Rapids)
- **Mercy Medical Center, South Entrance**
(Enter from 8th Avenue SE)
- **Hall-Perrine Cancer Center, East Entrance**
(Enter from 10th Street SE)
- **St. Luke's Hospital, West Entrance**
(Enter from 'A' Avenue NE)
- **St. Luke's Medical Office Plaza, North Entrance**
(Enter from 'A' Avenue NE)

There are also many facilities within the District with convenient drop-off areas and adjacent parking lots to help minimize your exposure to the elements.

For more information about valet parking and other parking options within the MedQuarter, you can view our MedQuarter Map at: www.themedquarter.com/Content/About-MedQ/Medical-District/MedQuarter-Map.aspx

The valet locations are marked with a (V) symbol on the MedQuarter **brochure map**.

V Valet Parking

As a life-long Cedar Rapiidian I know that this weather won't last forever, but days like these do seem longer than others. We might as well do everything that we can to stay warm and dry.

Enjoy your visit to the MedQuarter – regardless of the weather!
